PROFILE SUMMARY

Fullstack Developer with a year of experience in designing, developing, and implementing web applications and solutions. Proficient in both frontend and backend technologies, including HTML, CSS, JavaScript, bootstrap, Django, and Python. Adept at collaborating with cross-functional teams to deliver high-quality, scalable, and maintainable software. Passionate about staying up-to-date with industry trends and continuously improving my skill set to deliver innovative and efficient solutions.

WORK EXPERIENCE

FLIPTOTECH   2023 - PRESENT
Fullstack Development

- Founded and established Fnag Tech, a technology teaching company focused on programming languages, frontend development, coding, and UI/UX design.
- Mentored students, providing personalized guidance and feedback to enhance their learning experience.
- Developed responsive portfolios and e-commerce websites using modern web technologies such as HTML, CSS, JavaScript and Django for storing data.
- Collaborated with clients to understand their business needs and design requirements.

FLIPTOTECH   2023 - PRESENT
UI/UX Design

- Designed the Cashpay mobile app using Figma, focusing on intuitive user interfaces and seamless user experiences.
- Ensured easy user engagement by creating a streamlined user flow within the app.
- Received positive feedback from users regarding the app's design and usability.
- Proactively addressed user complaints and resolved issues to enhance overall satisfaction.

FLIPTOTECH   Oct 2023 - Nov 2023
Web Design (webflow)

- Developed and published a responsive school website using Webflow.
- Implemented custom features, optimized performance, and maintained the site.
- Improved user experience through intuitive navigation and visually appealing design.
